

PVE 2319 VM

High Frequency Vibrator with Variable Moment

Specifications

Eccentric moment	0 – 19 kgm
Max. frequency	2300 rpm
Max. centrifugal force	1100 kN
Max. line pull capacity	300 kN
Total weight, without clamp	3100 kg
Vibrating weight, without clamp	2450 kg
Max. amplitude, without clamp	16 mm

Due to improvement and engineering progress we reserve the right to change specifications without notice.
